Dyson V-series cordless stick vacuum models range from V6 to V11, though there was no V9 model. Most V-series generations have three variants: Motorhead, the basic machine with few accessories; Animal, usually the same machine with a hefty assortment of accessories; and Absolute, the top-of-the-line for that series, with the full list of attachments. Even though more is often better, the typical \$100 price jump from the Animal to Absolute version includes accessories that make some cleaning jobs a bit easier but don't add significant new functionality. So for most of us, the Animal version of a given V-series Dyson cordless stick has all we'll need (or use). Dyson cordless stick vacuum generations differ in battery run time, dust bin size, suction power, suction modes, cleaner head, and air filtration. All models convert to handheld vacuums for cleaning stairs, furniture, walls, and ceilings. As you'll see below, the V8 Animal Cordless Stick Vac has many features of the latest generations, but the price is similar to the earlier models. We've found the best discounts on Dyson cordless vacuums from Amazon and put them all in one place, in this case comparing the midrange Animal models for each generation. Whether you're buying a gift or just need a little extra help around the house, these five deals can help you save up to \$275. Dyson V8 Animal Cordless Stick Vacuum — \$200 off The Dyson V8 Animal Cordless Vacuum has more suction power and longer battery life (up to 40 minutes) than the V6 or V7. The V8 Animal also adds a whole-machine HEPA air filter, which helps remove allergens and bacteria from the air. Normally priced at \$499, the Dyson V8 Animal Cordless Vacuum is just \$299 during the sale. This same model is priced at \$400 at Walmart, Best Buy, Lowes, and Home Depot. If you want the best deal on a Dyson Cordless Stick Vacuum, this is it. Dyson V6 Animal Cordless Vacuum — \$225 off The Dyson V6 Animal Cordless Vacuum has a 20-minute maximum battery runtime before recharging. Like all later models, the V6 also has a motorized cleaner head to handle all floor types. Originally \$500, Dyson's V6 Animal Cordless Vacuum is just \$275 during this sale. If you're looking for the very least amount you can spend on a Dyson Animal cordless stick model, the V6 is the one, but for \$5 more you can get a V7 Animal with 10 minutes greater maximum battery time, and for \$24 more you can get a V8 Animal with many more upgrades. Dyson V7 Animal Cordless Vacuum — \$120 off The Dyson V7 Animal Cordless Vacuum steps up from the V6 Animal with 10 minutes more maximum battery run time. The V7 also has a larger dust bin and a more powerful brush head than the V6 Animal. Regularly priced \$400, the Dyson V7 Animal Cordless Vacuum is just \$280 during for this sale. If you're shopping for a cordless Dyson, we think the \$19 more for a V8 Animal is a bargain. Dyson Cyclone V10 Animal Cordless Vacuum — \$150 off The Dyson Cyclone V10 Animal Cordless Vacuum steps up from the V6 through V8 models in several aspects. The battery life maximum raises to 60 minutes, the V10's suction power and brush head power are significantly higher, and the dust bin is larger than all earlier models. Ordinarily \$600, the Dyson Cyclone V10 Animal Cordless Vacuum is \$450 for this sale. The V10 is a fantastic cordless vacuum, but with its \$151 price jump over the V8 Animal during the sale, the V8 is still the most compelling deal. Dyson V11 Animal Cord-Free Vacuum Cleaner with extra mattress tool — \$599 The Dyson V11 Animal Cord-Free Vacuum and extra mattress tool bundle have the latest Dyson cordless stick vac technology. The V11 has 20% more suction power than the Cyclone V10, an improved floor-sensing brush attachment, and a battery life indicator. Amazon doesn't currently offer a discount on the latest generation Dyson V-series cordless stick vac, but you can select a bundle with a second mattress cleaning tool for no extra charge. Amazon did not discount the V11 Animal's \$599 list price, but if you want the latest Dyson cordless stick model, this is it. There is also a V11 Torque Drive model for \$100 more than the V11 Animal that adds a digital display screen and automatic floor type sensing in Auto Mode. Despite the V11's new features, we still give the nod to the Dyson V8 Animal Cordless Stick Vacuum. Looking for more smart home deals? Find robot vacuum deals, vacuums under \$100, and more on our curated deals page. Follow @dealsDT We strive to help our readers find the best deals on quality products and services, and we choose what we cover carefully and independently. Editors' Recommendations If there's one product in the world that I want to really suck, it's my vacuum. And yet, despite all of the dang vacuums on the market, a truly sucky vacuum eluded me for years—and I owned many, from corded to handheld to robot to miniature. Over the years, I heard the Dyson brand name tossed around as the gold standard for quality vacuums (and pretty much all of the high-tech products it makes, including Dyson hair tools and Dyson air purifier/humidifiers), but I always scoffed at the price tags. Still, one day last spring, I finally broke down. I'd spent yet another sweaty, short-tempered morning fighting the pet hair in my apartment with my clunky Shark Navigator, which required me plugging and re-plugging it in multiple times, dragging it from room to room, and later shoving it into a corner where it barely fit. As luck or fate would have it, running errands that afternoon, I passed a Best Buy with a Dyson display. The kind salesperson dumped glitter and Cheerios on the carpet so I could test out various vacuum models, and that was it. "I'm 32," I told myself. "Don't I deserve a grown-up vacuum that doesn't make me wrangle it like a steer?" Reasoning that the store's return policy is generous, I shelled out the full \$400-plus for a Dyson V8 Animal cordless stick vacuum—and neither of us has ever gone back. How the Dyson V8 Animal worksThe Dyson V8 Animal is a sleek lavender-gray upright-cordless vacuum that comes with four extra tool attachments so that the vacuum seamlessly converts into a hand vacuum with the click of its red central button. To use the Dyson V8, I just press its trigger button on the handle (and to stop, I just let go). Easy peasy!The Dyson V8 is best used on hardwood floors, though it does a totally fine job on rugs and carpets (I have both hardwood and many rugs, for reference). It's a bagless vacuum with a trim barrel that lives as part of the handle, and it has the capacity to hold 0.15 gallons (which I find is a completely suitable size for my one-bedroom apartment).To empty the Dyson V8, all I have to do is pull out my trash can, level the bottom of the barrel over it, and lift up the red eject tab-lever-thingy. The bottom of the barrel pops open, and with a slight shake, the dust and debris empties into the trash (and I never actually have to touch the dirt). To charge the Dyson, you first install the vacuum's included dock to your wall (in my case, it's tucked into a corner in my kitchen). This dock houses the charger, as well as two of the included tools of your choosing. When I finish using my vacuum, it's simple to click it back into the dock so that it charges for my next cleaning.The best Dyson V8 Animal featuresThere are many things I love about my Dyson V8 Animal; primarily, how light it is, how long it holds its charge, how freaking powerful it is, and how much more often I find myself vacuuming than ever before.
